

Easter Egg Hunt:

We've done two types of hunts. They both involve having the plastic eggs. You could probably make eggs out of paper if you prefer. Hide the eggs throughout the lodge room and/or other areas of the Masonic Center.

1. Give a prize for the most number of eggs found.
2. Have members fill Easter baskets. I buy candy and put a type of candy and amount (1 peep, 10 black jelly beans, etc.) on a slip of paper inside each egg before hiding them. The members fill there baskets (usually made from construction paper as we did when we were in grade school) with whatever is on the slips of paper in the eggs they find. That way, everyone gets to take something home with them.
